JOIN US FOR THE SIMCODES REU PROGRAM IN AMES, IA!

Summer 2027. Dates: June 2027 – August 2027

SIMCODES — The Sustainability Institute for Machine learning and Collaborative Open-Source Development of Enzymatic Simulations

Are you an undergraduate interested in cutting-edge computational research? Join us at Iowa State University for a unique, cross-disciplinary opportunity!

RESEARCH AREAS

Chemistry, Computer Science, Software Engineering, Data Science

PROFESSIONAL DEVELOPMENT

Network, explore career opportunities, resume building, team building

HANDS-ON EXPERIENCE

Chemistry, Computer Science, Software Engineering, Data Science

PROJECTS

Molecular dynamics simulations, machine learning models, new ML techniques, high-performance algorithms

WORKSHOPS & LECTURES

Learn state-of-the-art practices in computational chemistry, machine learning, and computer science

CAPSTONE PRESENTATION

Showcase your research to peers and ISU faculty and staff

WHY JOIN?

- Gain valuable research experience
- Work with a diverse cohort of students
- Learn from leading experts in the field
- Paid 10 week internship including housing, meals, and travel.
- Stipend - $7000
